

A K.P.Degree college, Khurja
IDP implementation report

The institute prepares Institution development plan every year, providing a road map for the development of the institution in various fields like academic, infrastructure and other development s...In 2024-25 the college divided its IDP on the basis of three kinds of goals - short,mid and long term.

The short term goals were intended to be achieved within three years of its implementation.Firstly, the college aimed to participate in NIRF ranking which it successfully achieved. The institution participated in the NIRF ranking. Second aim was to participate and get NAAC accreditation which could not be done as the NAAC portal has been closed in this period.

The institution also aimed to get ISO certification for higher education.The institution got an iso certificate(ISO 9001: 2015) in the session.

The institution also had some mid term goals, like to develop the college as an Institution of skill oriented learning centre. In 24 -25 the institution skill trained around more than 500 students not only of the institution but also from the society and adopted villages. Skill training were given by the skill development centre at college MSME of and big houses like Infosys and Sheela foams. Workshop was organised by IBM company and shooting stars foundation providing information to the students about free online skill courses specially for non engineering students.

The college is actively working on imparting research facility in different subjects. Research centres have started in 4 more subjects other than Hindi in economics, history, physical education and political science. Institution is making great efforts to bring new employment oriented courses in the next session .It also eyes to open distance learning centre in the college .Project to establish well equipped skill laboratories is also in the pipeline.
